CleenU⁺

CleenU⁺

9 Reasons to Stock CleanU

Why your customers will come back for more:

1. Built on professional formulas

Our retail line starts from the same cleaning approach we develop for hotels, restaurants and food service. Each product cleans and adds care ingredients that help surfaces keep their look.

2. Easy to use, results you can see

Spray, wait, wipe. The products save time and effort, which is exactly what shoppers expect when they pay for quality.

3. The right cleaner for each job

Each formula is built for a specific soil and surface,

so common household surfaces get visibly clean and stay protected longer.

4. Deep cleaning

Cleaning agents reach into textured surfaces and fine pores to lift the buildup that everyday wiping leaves behind.

5. Gentle on the surfaces they're made for

CleenU products clean thoroughly and gently, helping kitchen, bathroom and living-room furniture keep its good looks for years.

6. Specialists, not one-size-fits-all

Instead of one spray for everything, we make dedicated products for different cleaning jobs, for better cleaning, care and protection.

7. Concentrates that go further

Concentrates are diluted to match the level of soil, so users pay for cleaning power, not water. Less packaging, less waste, lower cost per use.

8. Made by CleanU in China

Every product is formulated and manufactured in our own factory in Guangdong, with batch documentation (SDS, TDS, COA) for consistent quality at a competitive cost.

9. Ready for your brand

Every product in this catalog is available as private label, from 500 bottles.

CleenU develops and manufactures cleaning and care products for homes, hospitality and food service. We formulate for the real materials people clean, from stone and tile to wood, vinyl and plastics.

CleenU cleaning and care products: made to earn repeat customers.

5 reasons to choose CleenU as your supplier:

Specialized cleaners for retail, hospitality and e-commerce, with care ingredients that keep surfaces looking good. The result is a line that sells through and gets reordered.

1. A range you can curate

Pick exactly the products your customers need from the CleenU range.

We help you build a set that fits your store, your channel and your price points.

2. Product know-how and sales materials

Product data sheets, SDS and point-of-sale materials help your team answer questions and help shoppers buy with confidence.

3. Stand out from the competition

A complete, specialized line positions you as the expert. Sell it on the shelf, or use it as a gift with purchase that customers actually value.

4. Customers who come back

When a product solves a real problem, customers return for the refill and try the next product in the line.

5. Healthy margins on add-on sales

Specialty cleaners are natural add-ons. Strong performance and fair pricing keep them profitable for you.

We help you sell it, not just stock it.
