# 8 Reasons to Stock CleanU

## Why your customers will come back for more:

### 1. Built on professional formulas

Our retail line starts from the same cleaning approach we develop for hotels, restaurants and food service. Each product cleans and adds care ingredients that help surfaces keep their look.

### 2. Easy to use, results you can see

Spray, wait, wipe. The products save time and effort, which is exactly what shoppers expect when they pay for quality.

### 3. The right cleaner for each job

Grease on a range hood, fingerprints on stainless steel and scale in a coffee maker are different problems. We make a dedicated product for each one.

### 4. Cleans thoroughly, stays gentle

Each formula is matched to its surface: pH-neutral where the finish is delicate, stronger where the soil is baked on.

### 5. Care that lasts between cleanings

Several products leave a thin protective film that helps repel water, grease and fingerprints, so the next cleaning is faster.

### 6. Specialists, not one-size-fits-all

Dedicated cleaners for kitchen, bath and living areas clean better and protect surfaces better than a single all-in-one spray.

### 7. Concentrates that go further

Concentrated versions are diluted to match the level of soil, so users pay for cleaning power, not water.

### 8. Ready for your brand

Every product in this catalog is available as private label, from 500 bottles.

CleenU develops and manufactures cleaning and care products for homes, hospitality and food service. We formulate for the real materials in a kitchen, from stainless steel and natural stone to lacquered fronts and plastics, and add care ingredients that widen where each product can be used.

**CleenU cleaning and care products: made to earn repeat customers.**
